PROFESSIONAL SUMMARY

Enthusiastic final-year B.Tech Computer Science & Engineering student with certified training in basic Manual Software Testing. Familiar with fundamental test case design, basic web concepts, and defect reporting. Eager to learn on the job and assist startup teams with live project quality assurance and software tasks in a remote internship.

TECHNICAL SKILLS

- **Manual Testing:** Basic Test Scenario & Test Case Design, Functional Testing, Defect Reporting
- **Programming & Web:** Basic Python, Basic HTML5, Basic SQL
- **Tools & Platforms:** MS Excel, MS Word, VS Code, Git / GitHub (Basic)
- **Concepts:** Basic SDLC & STLC, Web Application Testing Basics

EDUCATION

Bachelor of Technology (B.Tech) – Computer Science & Engineering **Aug 2019 – June 2023**
College of Engineering Alappuzha, Punnapra, Kerala

- Scored: 6.42 CGPA | Completed core B.Tech coursework

CERTIFICATIONS & PRACTICAL PROJECTS

Software Testing Specialist Certification **May 2024**
Issued by Luminar Technolab, Cochin (NCTT & IAO Accredited)

- **Login Page Testing (OrangeHRM Practice Project):** Wrote and executed basic manual test cases for login fields, authentication behavior, and logged bugs in Excel.

COLLEGE PROJECTS

Floor Mat Detection & Classification using YOLOv5 **College Project**

- Built an object detection system classifying 3 types of floor mats as part of B.Tech coursework.
- Prepared dataset, annotated images, and assisted in model testing using Python and YOLOv5.

ADDITIONAL INFORMATION

- **Languages:** English (Fluent), Malayalam (Fluent)
- **Work Mode:** Ready for Immediate Remote / Work-From-Home Internship (20–30 Hours/Week)
